How I See It – by *Rick Haney*

Held our Fun Fly today. The weather was August hot and windy. We had thirteen participants signed up to fly in four events. No planes crashed but some close calls did bring some comments from the peanut gallery. I think the results of our contest are in this news letter somewhere.

I think it was the letter before last that I said I could only see one plus about our field and was leaning toward maybe moving out of town. After talking to a number of members and some deep thought (tough for me to do) I have changed my mind again. You know we only pay \$1.00 a year to have this field, we will still have the mowing to do whether we move or not and it is further to go to do it, the sun isn't as bad an issue, we will probably not gain any members by moving and Larry's field is a place that we can go to fly for something different. His field is a nice field. It's a wide open area, long runway, no housing issues, and the hobby shop is right there if you need something.

How was that for a 180 degree turn around!

At our meeting Wednesday evening we had 14 members present. Not a bad turnout. We flew before the meeting and also after the meeting. Mike Cobert brought some small (really little) plans. They really flew well. He also had a biplane that had lights in the top wing. Neat!

On to the next contest. The Erie club hit a snag. It rained! We sat around until 11:00 and the decision was made to reschedule the event for the 30th of August. Just a little hick up.

We had our Float Fly today. Let me say one thing before I say anything about the event. I would like to thank some people

that went above and beyond to make the event a success. A big thanks goes to Dan Jones and his folks for letting us use their property for our event. Also thanks to Mark Cronister for running for lunch and some other behind the scene things that had to be done. The ordering from HUNGRY HOBO seemed to work quite well. At least I didn't hear any complaints. Skip Chick sure helped me with the signing in of the participants, which gave me the time to mingle with the crowd and fly my plane. The biggest thanks go out to the participants. They are what make the event a success. What a great day. The river looked like a mirror. Not even a ripple and no wind at all in the morning. We did have a light breeze around noon which made it even better. It is easier to get off the water when there are some ripples in the water. We had 18 sign in to fly, and fly they did. There was only one disaster. A pilot, whose name will remain anonymous, crashed into the river and by luck didn't do as much damage for the sound it made when it hit the water. You know I always say if you crash them right they aren't rebuildable and if you do crash, do it in close because the sound is really neat and when a plane hit's the water it is really neat! The boat was used only five or six times. Not bad for the amount of flying that went on.

Next is the Erie Fun Fly. Hope the weather will be as nice for them as it was for us. Love the contests.

Check our calendar for the next event to participate in or at least go and watch.

Have a good one.

Rick

NOTICE

The past few meetings the topic of moving our field has been brought up and discussed. There has been a lot of discussion on the pros and cons of our field and Larry Newberry's field. At this month's meeting (September 9th), we will be voting on whether or not we will move or flying site out to Larry Newberry's. In order to have your wishes expressed, you must attend this meeting and cast your vote! Come early and bring a plane to fly. See you there!
